PRICING & PROMOTIONS

Firstly, a warm welcome and Thank you to all our Customers and Friends, many now in their 21st year of trading with us.

Let me start with an important question for you.

Are you receiving our Monthly Promotional offers?

If not, you will be unaware that every month, we have approximately 40 Products on offer with between 10%-50% discount off list price and therefore missing out on some fantastic deals.

To register for these promotions, please contact the office on 01708750006 or your sales agent to receive via email or WhatsApp.

This year we have not entered pricing in the brochure as it is not a true reflection of the overall, much lower pricing we have to offer on a regular basis.

For up-to-date pricing please visit: www.simplyheavenlyfoods.co.uk

We also have special pricing available for larger volumes from Half Pallets to Full Containers. For which many of you are now already taking advantage of.

For further details please contact the head office on 01708750006.

Whether you require a regular call from your Telesales Manager or a visit by one of our Field sales team or you wish to order online or by phone or you require special deliveries. Good things go together

Refreshing juices and green tea drinks

Amazonian Energiser

Three superfoods come together in this Powerhouse: green tea, blueberries and açaí - an antioxidant-packed berry of Amazonian proportions.

Power Pair

Combining age-old wisdom from the Middle East and Asia, two of the world's best known antioxidants are pomegranate and green tea. And they're super refreshing on a hot or cold day.

Brilliant Berries

Nicknamed 'happy berry' in Asia, goji has more beta-carotene than you can shake a carrot at. Combined with green tea to brighten up your day.

Daily Hydration

In China there's an ancient Chinese proverb that says it's better to be deprived of food for three days than tea for one. We think this delicious drink is a testament to this old proverb.

Super Juices

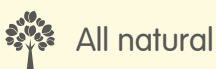

Thought all the fruits had been discovered? Think again. The Yuzu is only the size of a golf ball, but it tastes like lemons, grapefruit and limes, and bursts with antioxidants too. Best of all though, it makes amazing still lemonade.
